Phaser® 3600 Laser Printer

Pure printing pleasure. Combining surprisingly high-end performance features with consistent day-in-day-out reliability — all in a compact device that's built to keep your productivity high and your costs low.

The power to please

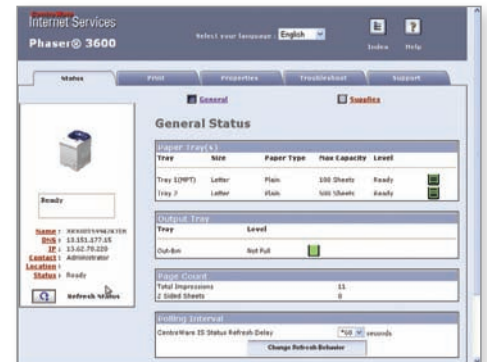

The Phaser 3600 laser printer brings Xerox quality and superior performance to single users and small workgroups that demand superior productivity.

- **Fast printing performance** delivers results at up to 40 ppm — plenty of speed to keep up with your big print load.
- **A first-page-out time as fast as 9 seconds** means you spend less time waiting for print jobs and more time staying productive.
- **Complex print jobs, handled with ease.** A robust 400 MHz processor works behind the scenes to quickly take care of whatever comes its way — even multipage jobs loaded with graphics.
- **Network printing** (standard on the N and DN configurations) makes the Phaser 3600 laser printer a more powerful office ally, helping more users get more work done.
- **Get even more helpful capabilities**, like Secure Print, which keeps a private print job in the queue until released by the job owner, and RAM collation, which speeds up larger print jobs by quickly processing multiple sets of multipage documents.

Unbeatable value

With advanced features typically found on higher-priced laser printers, the Phaser 3600 offers more performance for less.

- **More speed, better features and a robust, user-friendly design** — no other printer in its class matches the Phaser 3600 laser printer's total-value offering.
- **Print more without interruption** with two standard paper trays holding a total of 600 sheets. Need more capacity? An additional 500-sheet tray is available.
- **Affordability comes standard**, with a low cost per page and helpful, cost-saving features like toner-save and energy-save modes, plus available automatic two-sided printing and N-Up printing for more efficient paper usage.
- **The print cartridge is easy to replace**, and lets you choose standard-capacity at a lower price, or high-capacity, for greater print volumes and reduced total cost of ownership.
- **We stand behind our promise** of outstanding reliability and performance with a standard one-year warranty. Plus, the **Xerox Total Satisfaction Guarantee** provides free replacement of your Xerox device if for any reason you are not satisfied with its performance.

Xerox simplicity

Helpful administration tools, like CentreWare IS internal web server, make it fast and easy to manage everyday usage. You get quick and convenient access to a wealth of features, including printer and job status, and toner volume updates, media availability, in-depth accounting information, simplified printer installation and network administration, and more.

The security your business needs

Safe documents

- Secure print holds job in the queue until released with a PIN.
- Watermark customizes documents with words, such as "Confidential."

A good network citizen

- IEEE 802.1x protocol ensures that connected printers have proper authorization.
- HTTP enables secure device administration.
- SNMP v3.0 provides encrypted network management.
